Abstract
Problems of Hadeeth in Sahih Muslim
from Book of Marriage and Book of curse

ELenazi Ali Maiq

Mu'tah University, 2011

This study is Summarized in its aim to introduce the Imam, and his tow sahih and the Clarify the meaning of different and making sure of the difference between them.

The study also aims to study the thirty-three problems in the four books of sahih Muslim: they are Book of Marriage - breastfeeding book - a book of divorce and Book of curse and their criticism on support and stand on the says of the scholars in raising the problem that appears in each hadeeth and its discussion and the likelihood of What we see closest to the truth impartially relying on the rules of the different and formed of Hadeeth.

One of its goals as well: make sure there are formed Hadeeth in the Sunnah of the Prophet because that either the confusion of multiple narrators or the multiplicity of

case or to the general and particular, or all, restriction or copying one man and what might not be a problem for others as well.

This study emphasized in conclusion of the study in the review of the re arrange of the rules of this science, the importance of such specialized studies respond to those who doubts in Sunnah, including to what they say about the contradiction and difference of it
